Workshop  
On  
***'Food and Nutrition Security: building global partnerships through  
South-South cooperation'***

16<sup>th</sup> April, 2014,  
India Habitat Centre, New Delhi.

A workshop was organized on 16<sup>th</sup> April, 2014 on 'Food and Nutrition Security: building global partnerships through south-south cooperation' by IPE Global on behalf of DFID under its Knowledge Partnership Program (KPP). The workshop was organized in the context that India is a potentially powerful source of evidence and lessons on addressing food and nutritional security, particularly for low income countries in South Asia and Africa. This perspective was showcase in the report that synthesize the existing evidence on how India has addressed food and nutrition security challenges in recent years, map existing demand for India's partnership on this issue, and take first steps in identifying promising areas for sharing lessons and good practice with LICs.

Using this scoping paper as a point of reference, the focus of this workshop was to:

- Present promising practices and lessons identified by the paper that have potential to be shared with LICs, drawing on the view of the authors and the input of key discussants;
- seek views on whether there are other promising options and instruments available for sharing Indian innovation (policies technologies and institutional lessons) with developing countries;
- generate ideas how development partners (including workshop participants) could help to support or catalyse knowledge-sharing between India and developing countries;
- identify areas that need further investigation.

## **Identify Partnerships/ Stakeholders**

- **Nutrition Security** :\_Scaling Up Nutrition (SUN) Movement; 65th World Health Assembly, May 2012; UN Agencies & International Organizations (UNICEF, WFP, IFPRI)
- **Food Security** :\_ITEC- on technology; US India Partnership; CSR Private sector hub, GOI/ ICAR- IAFS I & II, New Alliance for Food Security and Nutrition in Africa, NEPAD, CAADP, International Organizations (ICRISAT, FAO)
